DRIVING THE FUTURE
OF GREEN MOBILITY

FORT EV MOTOR SERVICE PVT LTD

About us

Welcome to **Luxus Green Mobility™**
a pioneering force in the electric vehicle (EV) industry. Based in Chhattisgarh, India, we specialize in manufacturing electric three-wheelers, committed to reshaping urban transportation through innovative, eco-friendly, and dependable mobility solutions.

Sustainability Meets Innovation

Vision

To be a global leader in the electric vehicle industry, renowned for our commitment to sustainability, technological advancement, and excellence in manufacturing. We aspire to set new benchmarks in the sector and inspire the shift towards greener, smarter, and cleaner transportation.

Mission

We want to change the way people travel by providing top-notch electric vehicles that are efficient and eco-friendly. Our advanced EV technology and excellent craftsmanship help lower carbon footprints, improve urban mobility, and support a cleaner planet.

Core Values

Guided by Integrity, Powered by Innovation

At **Luxus Green Mobility™**

we are committed to driving a sustainable future through innovation, integrity, and customer-centric solutions. Our core values emphasize environmental responsibility, excellence in quality, and a passion for clean mobility.

IN ELECTRIC & CNG

Future Expansion:

Luxus Green Mobility is proud to announce the upcoming launch of its manufacturing units across key states in India. Soon, our state-of-the-art facilities will be established in Maharashtra, Gujarat and Delhi. This strategic expansion aims to strengthen our commitment to delivering innovative and sustainable electric mobility solutions, while boosting local economies and contributing to a greener future. Stay tuned as we drive the future of transportation across India!

We are pleased to announce that our manufacturing unit in Chhattisgarh is already fully operational. This facility plays a crucial role in our mission to deliver high-quality, sustainable electric mobility solutions, further strengthening our presence in the region and contributing to the green revolution.
